LED6176 - Introduction to Team Leadership

Course Code	LED6176
Course Title	Introduction to Team Leadership
Description	<p>Everyone is responsible for some form of supervision, whether it's directing the actions of a few or many, and whether they are classified as a supervisor or not. This course is a general introduction to management where participants learn how to lead others, even if they don't have the authority of a supervisory position. Specific topics include establishing rapport and cultivating influence; achieving trust and building relationships; planning and organizing projects and resources; building and leading a team; solving problems and making decisions; and implementing change successfully.</p> <p>Objectives: Handle responsibility and act with authority; Effectively manage time and reduce stress; Manage the day-to-day challenges of leading a team; Use effective strategies for organizing projects and negotiating resources; Apply problem-solving and decision-making skills to accomplish tasks; and Create and implement change in your organization.</p> <p>Target Audience: Anyone who leads and manages others in accomplishing work.</p>
