# National Conservation Training Center

## Training Announcement

### New! Advanced Geospatial Topics, ArcGIS Pro - CSP7305

#### Description

This **3 day** course offering, instructed by ESRI, is designed to get experienced FWS geospatial practitioners up and running with ESRI's newest desktop application – ArcGIS Pro. Students will become acquainted with the new ribbon interface, render 2D and 3D maps from ESRI's extensive base map layers, discover it's new editing and analysis capabilities. In addition, students will experience how this application integrates with ArcGIS Online. Note - seating is limited to 15 students and restricted to FWS employees only.

#### Date

July 18-20, 2017

#### Location

NCTC, Shepherdstown, WV

#### Prerequisites

Proficiency with ArcMap 10.x, ArcCatalog and geoprocessing tools

#### Who Should Attend

GIS Specialists, Cartographers and Biologists who are ready to **transition** from the desktop environment to ArcGIS Pro

#### Course Length

3 days
